

SHIP PFL CANADA

Ship PFL Canada

**Your Freight, Our Drive —
Scaling North America Wide**

Reliable capacity, proactive communication, and cross-border freight support for growing North American supply chains.

📍 Toronto / Etobicoke-based freight carrier serving Canada and the U.S.

Why Shippers Choose Ship PFL Canada

Capacity you can plan around

Coordinate dry van, reefer, flatbed, step-deck, RGN, LTL, partial and cross-border requirements through one accountable partner.

Communication before you need to ask

24/7 live dispatch, automated check calls and proactive exception alerts keep your team informed.

Faster decisions

Firm quote turnaround in under 30 minutes on most lanes helps you protect schedules and move quickly.

Built for shipper confidence

Tracking, digital BOLS, proof of delivery, safety controls and cross-border support reduce avoidable friction.

Who We Are

Ship PFL Canada is a Toronto-area freight partner built to help shippers move dependable capacity across Canada and the United States.

Our operating model combines asset-based transportation with practical support for dry, temperature-controlled, flatbed and specialized freight.

From local GTA and Golden Horseshoe moves to cross-border and long-haul lanes, our team focuses on clear communication, safe handling and dependable execution.

Base: Etobicoke, Ontario

Coverage: Canada and the United States

Focus: Commercial freight and shipper partnerships

Services & Equipment

Trackload

53° dry van truckload and refrigerated / multi-temperature reefer

Specialized

Flatbed, step-deck and RGN

Flexible freight

LTL and partial loads

Cross-border

Canada–U.S. freight support

Additional capacity

Warehousing, cross-dock, storage, pick & pack and brokerage capacity

Match the equipment and service level to the load, lane and delivery requirement.

A Clearer Way to Move Freight

1 Share the lane

Send pickup, delivery, commodity, equipment, weight, dimensions and timing.

2 Get a firm plan

We review capacity, equipment and lane requirements, then return a clear rate and operating plan.

3 Move with visibility

Dispatch coordinates the load while tracking, check calls and exception communication keep everyone aligned.

4 Close the loop

Receive digital BOLS and proof of delivery so your team can reconcile the shipment quickly.
